

PATENT
674509-2045.1REMARKS

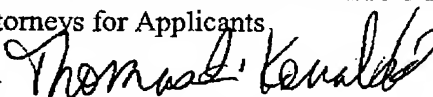

Claims 38-47 and 50-54 are pending. Claims 38, 50-52 and 54 have been amended, without prejudice, without admission, without surrender of subject matter and without any intention of creating any estoppel as to equivalents.

Claim 38 has been amended to correct a misspelling. Claims 50-52 and 54 have been amended to introduce the recitation "wherein said enzyme is capable of hydrolysing at least 10% of galactosyl diglycerides normally present in a flour dough to monoglycerides". It is respectfully submitted that this amendment raises no new issues as the recitation is already present in claim 38.

Applicants respectfully believe the application is now in condition for allowance. Entry of the present amendment and prompt issuance of a Notice of Allowance is respectfully requested. And, the Examiner is also invited to telephonically contact the undersigned if there are any minor, formal issues that need resolving prior to issuance of a Notice of Allowance, with a view towards resolving such minor, formal issues via telephonic interview.

Respectfully submitted,
FROMMER LAWRENCE & HAUG LLP
